

Brezal Chair

Patricia Urquiola

The Brezal collection consists of a chair and armchair, both with aluminum frames and weather-resistant polypropylene cord. These designs combine durability and style, offering versatile solutions for outdoor environments. The distinctive pattern on the backrest, inspired by Mediterranean tradition, adds a touch of elegance, making them ideal for gardens, terraces, and indoor spaces as well.

The use of polypropylene cord provides resistance to weather and allows for easy cleaning and maintenance. With a wide color palette, the collection adapts to various styles and preferences. The chairs and armchairs can be easily integrated into different configurations, providing comfort and aesthetics without compromising durability.

An option with upholstered seat cushions is available, which stand out for their comfort, conveying a natural look and perfectly complement the cord work.

BREZAL CHAIR

PATRICIA URQUIOLA

NEW OUTDOOR DESIGNS

ANDREU WORLD

Its construction philosophy is based on an aluminum frame with EPL5 treatment* for outdoor use and available in 7 colors (black, white, earth brown, red, green, blue, and terracotta), with a woven backrest.
