

REVERSE WALL LAMP
TRAVERTINE, SAND/ALU., BRONZED - EU - DIMMER ON CORD
Designed by *Aleksandar Lazic*

A striking fusion of raw, natural materials and refined craftsmanship, the Reverse Wall Lamp is inspired by both the tension and harmony created by geometric constraints. The lamp's wall mount is crafted from untreated travertine stone, shaped into a conical form with natural imperfections that celebrate the beauty of organic textures. In contrast, the curved shade is made from anodised bronzed aluminium with a smooth finish for a polished touch. The lamp features an opal diffuser for even light diffusion and a warm, ambient glow. For retail use, the lamp features an intuitive dimmer, allowing seamless brightness control, with a switch-free cord for a clean aesthetic. The contract version is tailored for commercial spaces, with a rotary dimmer on the cord for easy access and a decorative, non-functional top button. It too supports hardwired installation, ideal for hotels, offices and public spaces. Both versions can be hardwired for a more seamless installation. For indoor use only.

SKU	71230-007326	COUNTRY OF ORIGIN	CN
EAN	5709262283194	MATERIALS	Aluminium, ABS, Travertine
DESIGNER	Aleksandar Lazic	TESTS & CERTIFICATIONS	EMC CE Certified
PRODUCT TYPE	Wall Lamp	CO2e	For any inquiries, please contact your local Sales representative
COLLI	2 pcs.	WARRANTY	2 years (Download)
