BAENK

Designed by Nur

This multifunctional bench is made of clean minimalistic lines inspired by the Nordic traditions. Baenk is made of solid oak, with focus on the unique veins that bring nature inside and gives each piece a very special and distinctive look. By adding a shelf and a seat, it can be used in multiple contexts. The shape of the bench is inspired by an old spool of cardboard and based on this inspiration the middle piece has been upholstered to provide increased comfort. The fabric is carefully selected to complement the structure and shades of the wood.
